

# Coordinate Proof with Quadrilaterals

- Determine the coordinates.

rectangle

parallelogram

isosceles trapezoid

rhombus

- Illustrate the following situation on a coordinate plane

Object 1. The median of an isosceles trapezoid is parallel to the base

Object 2. The diagonals of a rectangle are congruent.

Object 3. The segments joining the midpoints of the sides of a rectangle form a rhombus.

**Given:**  $ABCD$  is a square.  
 $M, N, P,$  and  $Q$  are midpoints.

**Prove:**  $MNPQ$  is a square.
